COMPANY OVERVIEW

Welcome to **ISINGIDI GLOBAL LIMITED**

This profile was prepared by **ISINGIDI GLOBAL LIMITED with Registration with CAC 1990, with** the project presentations showing the capabilities of the company in our various areas of specialization.

ISINGIDI GLOBAL LIMITED is a leading company with its head office in Enugu, Nigeria. Its main area of specialization includes General Contracts, Supplies, Construction, Maintenance, Rehabilitation, Installation and Management.

As our policy, projects are managed in a cost-effective manner on start alone or supporting basis in concert with its well selected overseas associates, project personnel terms chosen case by case, based on the basis of hand on experience for task at hand.

We therefore provide all services for which for it carries sole responsibility under a simple contract. Our company offers two forms of project on all in type where it acts as general contractor providing all requisite services including inspection and certification site camp provision and management assumes full responsibility for all works and supplies, appoints subcontractors when necessary and also pay them promptly.

In the other form, **ISINGIDI GLOBAL LIMITED** bandies all the Invitation and acceptances of tender for works and materials supplies in the name of and for the account of the client in a trustee capacity still taking full responsibility for price and completion time

OUR VISION IN SUMMARY IS TO RUN:

- A firm with impeccable and unassailable standard of practice;
- A firm respected for the quality of its services;
- A firm with tested transparent honesty;

- A firm with an assemblage of personnel with a high profile of hard work, discipline and integrity.

OUR MISSION STATEMENT: - Is to be totally devoted to the highest level of professionalism and honesty in all our area of activities.

Additional Company

- ▶ To promote a culture of outstanding quality service and to be recognized as an industry leader in the area of quality.
- ▶ To maintain, as the cornerstone of our business, the health and safety of our employees and the protection of the Environment.
- ▶ To actively involve and empower all employees in a continuous improvement process.
- ▶ To listen and respond to our customers/stakeholders and exceed their expectations.
- ▶ To adapt quickly and appropriately to changing business conditions and market opportunities.
- ▶ To hire and train Nigerians, which is an integral part of the company's joint venture agreement.
- ▶ Deliver quality projects to the satisfaction of our clients
- ▶ Deliberately manage company resources through waste avoidance and cost control

- ▶ Achieve tangible results and profitability for the benefits of all stakeholders

At ISINGIDI GLOBAL LIMITED we have an energetic and highly motivated team working to deliver projects to the highest of industry standards. Currently, we have 45 staff in our team with a wide range of experience and skills to ensure we can successfully deliver on any project.

MANAGEMENT

This involves the direction and supervision of interests in landed properties with a view to achieving the highest benefit from the investment which could be residential, commercial or agricultural etc. In other words, we manage landed

properties on behalf of their owners which involves rent collection and revision, repairs and maintenance, collection of rates and management of service charge etc.

DREDGING SECTION

{DREDGING AND MARINE OPERATIONS} DREDGING/STOCK PILLING RECLAMATION. CHANNEL SWEEPING CANALIZATION SHORE PROTECTION, & JETTIES PILLING & CONSTRUCTION

ISINGIDI GLOBAL LIMITED has a long standing tradition in operating a company owned fleet of high performance dredgers. The equipment fully covers our Clients' requirements for the dredging of:

Shipping channels

Land reclamation

Ports

Stockpiling

Road construction

Nigeria is endowed with access to the Atlantic Ocean, numerous inland waterways and large wetlands from Lagos to Calabar. Without permanent dredging activities the development of the southern part of the country and the functionality of its ports - gateways of the nation - could not be sustained.

ELICOT DREDGE 16 X 14 INCHES AT EKEREMOBAYELSA

In Nigeria Since numerous construction projects in Nigeria also require dredging works, the dredging department rounds off the range of services offered by **ISINGIDI GLOBAL LIMITED** compared with other methods, dredging offers numerous advantages: the dredged material is removed through pipes, eliminating the need for costly construction of transport roads.

The activities performed in the past years illustrate the various possibilities offered by the existing dredging fleet in Nigeria. They included sand extraction and hydraulic filling of industrial sites, road embankment sand new construction areas, true-to-cross-section dredging of shipping channels, basins and trenches for gas and oil pipelines in swampy areas, plus extensive shore protection and river bank protection measures. Millions of cubic meters of sand have been moved.

Such a task can only be performed with the help of an efficient fleet of dredgers, such as the one owned by **ISINGIDI GLOBAL LIMITED** with its five cutter suction dredgers. These dredgers are supplemented by extensive equipment

such as special boats, booster stations, transportation, workshop and flushing pontoons, and dredging pipes of various diameters. A range of wearing and spare parts, constantly in stock, are readily available.

DAM CONSTRUCTION/MAINTENANCE BEFORE INTERVENTION WORK IN PROGRESS

ISINGIDI GLOBAL LIMITED is positioned to handle major dredging projects for private clients, oil companies, and Government. We have worked for some of the oil majors, also working for The Federal Government Nigeria on-going Lower River Niger Capital Dredging and Maintenances Project (Lot 5) 76kilometer by 2.5meter depth by 100meter widening, and on-going Lower Anambra/Ezu/Ugbenne River channel dredging 51.5kilometers by 5meters depth by 80meters widening for Anambra State Government.

Our consultation and planning team provide you with the most innovative design and production techniques, which gives you the competitive edge that you demand in today's changing market.

MARKETING: We engage in good service delivery and mega marketing approach. That is getting things done at the right time, to the right people at competitive and reasonable cost. This is achievable through the team work of professionalism and integrity embedded in the company.

PROCUREMENT

"The right goods and services, at the right time, at the lowest cost". That sums up **ISINGIDI GLOBAL LIMITED** approach to procurement, and we have the experience, the tools, and the know-how to make it work. By providing integrated, reliable, and cost-efficient supply chain management services, we help ensure the success of large and small scale projects.

PROJECT MANAGEMENT

Project management ties together all activities of a project. A project well-conceived and adequately financed and carefully drawn up highly experienced management and workforce.

ISINGIDI GLOBAL LIMITED is a leader in project management, with experience on some of the most complex engineering designs and construction jobs. We know how to manage all aspects of even

the most complex project, from engineering to procurement to construction and completion. We also are experts at resolving conflicts and identifying issues before they become problems. Our team focus on the overall picture, establishing priorities and coordinating activities and participants to ensure quality projects that are delivered safely, on time, and within budget.

COMMITMENT TO QUALITY

ISINGIDI GLOBAL LIMITED employees embrace customer-focused, data-driven philosophy and apply it to everything we do. We also work with our customers and suppliers to achieve the highest levels of quality possible.

We continue to build on successes by sharing best practices across all of our businesses, putting the full power of **ISINGIDI GLOBAL LIMITED** behind our quest for better and faster customer solutions.

There are three key elements of quality: customer, process and employee. Everything we do to remain a world-class quality company focuses on these three essential

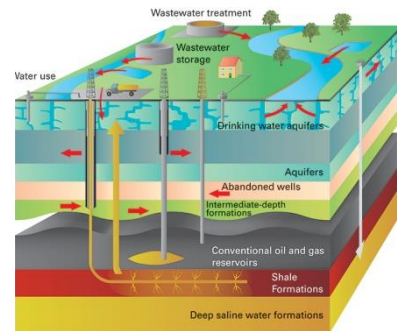

SOLAR POWER BOREHOLE

ISINGIDI GLOBAL LIMITED also undertake borehole drilling projects i.e. solar and hand pump boreholes, the business activities are focused on providing services that include borehole drilling and servicing, installation of

borehole pumps, installation of water tanks, design and implementation of irrigation systems etc.

ISINGIDI GLOBAL LIMITED has undertaken a lot of drilling works in Nigeria and has drilled in all geological formations making it “the company” with the largest database in the nationally. Drilling of boreholes, Dredging/Reclamation, Dams construction and installation of overhead tanks and water reservoir, construction and installation of irrigation facilities, structural water works, pipeline design and fitting, geophysical and hydraulic conductivity studies, aquifer analysis, borehole development, pump test, installation and maintenance works, flood control and routing, water analysis etc. Since inception, the company has undertaken a lot of water drilling contracts. Drilling through various geological formations, metamorphic, volcanic and sedimentary ranges. Managed by experienced geoscientist and in collaboration with engineers from relevant authorities and institutions, the Company has moved from small, simple enterprise to a well-established enterprise.

Other works that have been done with immense success are pumps supply and installation, borehole cleaning and small scale irrigation systems. Solar power adaptation has also seen increased growth.

A lot of installation done for solar pumps and accessories has created a firm indication that the future lies with solar system as a source of energy.

NB: The bore hole drilling operation is affected in stages viz:

STAGE 1: Geological Survey:

The initial step is to undertake a geological survey to determine the depth of the aquifer, good drinkable water and long lasting one. This is the feasibility work which will reveal the water level and rock basement which will enable us achieve a perfect work.

STAGE 2: We drill between 35-100 meters depending on the geological survey report showing the water level and basement rock. The basement rock does not pose much challenge as we have the needed equipment's to ensure success of the exercise.

STAGE 3: Drilling, casting, development and installation.

STAGE 4: Mechanical & Plumbing Work, DPC waste piping, water supply, channel piping, connections at input and output pipes.

SERVICES OFFERED ARE:-

- Drilling industrial and domestic boreholes
- Rehabilitation of boreholes
- Supply of water tanks and installation
- Supply of control panels for pumps and pumps installation
- Irrigation systems design and implementation

SUPPLY OF MEDICAL EQUIPMENTS

ISINGIDI GLOBAL LIMITED believes that accountability, culture change and integration of patient's choice into healthcare planning, coupled with regulatory compliance and performance improvement and evaluation of services, is key to delivering a relevant, effective healthcare and better outcomes for patients, service providers and government.

We work locally and globally in partnership with independent development organizations, Civil Service Organizations, Foundation Trusts, Focus Groups, government agencies and institution with the vision of making sure that the voice of the people who uses services are heard and their needs included in healthcare reforms and high quality service delivery.

Healthcare is changing very rapidly and has challenging complex issues. We believe that in areas of the world, we need to ensure that healthcare provision reflects the needs of the public and that they have access to healthcare provision.

LABORATORY SERVICES Our well-equipped and functional facility is appropriately positioned to render laboratory services. At every point in time, several researches,

Environmental analyses and studies are always ongoing in the facility.

The Laboratory covers a wide range of physicochemical and

biological analyses.

These analyses are carried out using our “Standard Operating Procedure” adopted from both national and International standard test protocols including ISO, ASTM, APHA, EPA, API, DPR and FMEnv. Our ISO 9001:2000 certifications is just a breath away as everything is being put in place to ensure that the certification is achieved in a few months.

Our team of analysts understands the need for quality delivery and our duty to ensure that appropriate decisions are taken in issues concerning the environment.

The appropriate safety equipment and gadgets are also in place to ensure personnel safety. The facility houses four (4) laboratories namely;

Wet Chemistry, Analytical Instrumentation, Laboratory and

Environmental Monitoring Services

In line with local regulations and international best practices, **ISINGIDI GLOBAL LIMITED** carries out environmental monitoring for many of the Oil and Gas Majors in Nigeria. We are also the first point of call for most indigenous exploration and production startups that require tested and trusted professionals to provide these services.

Production of pharmaceuticals:

The local pharmaceutical manufacturing industry is currently able to meet 25 per cent of local demand. Nigerian manufacturers produce liquid preparations, tablets, capsules, ointments, lotions, creams and ophthalmic preparations.

The local pharmaceutical industries are able to meet domestic demand for some classes of medicines in the proportions listed in Table the remaining 75 per cent of the market is increasingly dominated by imports from Asian companies.

Generally, the production flow scheme is in accordance with Good Manufacturing Practice.

Production processes are step-by-step, mixed manual and automated with the degree of automation varying between around 30 per cent and 80 per cent. Although nearly all of the 15 companies interviewed in the course of this report indicated that they planned to become fully automated, none had yet achieved this goal although some of them had reached the 80 per cent stage.

We know from research that Service Quality factors have been identified as the following:

- Timeliness and convenience,
- Personal attention
- Reliability and dependability
- Employee competence and professionalism
- Empathy
- Responsiveness
- Assurance
- Availability

Physical facilities and equipment Appearance of the personnel

The same characteristics has been found to apply to citizen's satisfaction with public service quality. Public sector quality improvement initiatives are on the rise worldwide as contracting and private service provision has become more common.

We assess or improve service efficiency and effectively, develop new pathways or services and needs with corporate governance and reporting including, risk and strategic planning. **ISINGIDI GLOBAL LIMITED** provides professional services tailored to meet individual corporations and individual needs. We are creative and innovative in working with our various clients in bringing their ideas to life.

Our expertise and knowledge base has enriched us with the capacity and capability to transform healthcare corporations and service delivery, advocate and influence policy making processes. **ISINGIDI GLOBAL LIMITED** consultants work with Communities and Service User's to ensure their involvement and choices are reflected in Healthcare Strategies, Policies and Local Area Agreements. We work with Healthcare Service providers to improve service delivery through various surveys to ensure that the quality of service they deliver puts service user's choice and needs at the fore front of their objectives.

We work at the local level to equip communities with the resources they need to increase their knowledge, enhance their development and empower them to express their needs, choices and engage in changing their lives. We have extensive experience in

developing and delivering quality advocacy services across a variety of settings.

OUR VISION AND VALUES

Our vision is to be the best healthcare company providing high quality solutions to service user's, healthcare corporations, governments and NGO's in a timely and responsive manner. We are committed to transforming the provision of healthcare both locally and globally. We believe very much in investing in our team and together we focus on doing what is right for our clients. We are passionate about delivering high quality uniquely tailored healthcare solutions.

We are committed wholeheartedly to work with government, committees, Wards, hospitals, Service User's and other groups to achieve enduring improvement and transformation of services for our clients. We essentially draw on our large resources and utilize our existing partnerships with multi agencies both locally and internationally to achieve sustaining health care reforms. We are passionate about making a measurable impact in all we do.

We believe fundamentally in health policies and provision that:

1. Fully provides information to its citizens
2. Puts User involvement at the core of Provider's objectives
3. Policies that creates national cultures of User involvement
4. Views Users as recipients and play participatory part in Service Delivery
5. User involvement in evaluation of service outcomes

6. Introducing Customer Charter in all Healthcare Services

RESPECT

We respect the capacity and desire for personal growth, as well as the talents and beliefs of clients, colleagues and all other people we meet in the course of our work. Regardless of position, we treat people with consideration. We value ideas on their merit, not on the tenure of their source.

We recognize that respect requires both truthfulness and empathy. We deal with one another in an open and honest way. We encourage constructive criticism. We reward performance and contribution consistent with our values. We utilize transparent decision making processes. We lead by example.

PARTNERSHIP

A partnership perspective guides **ISINGIDI GLOBAL LIMITED** relationships both internally and with clients. We take a long-term view in our relationships. We strive to build bonds founded on respect, caring, honesty, mutual support, and investment. We work together in a manner that is team-oriented, constructive, and challenging. Internally, we believe that a collegial environment fosters continuous learning. We know that teamwork and cooperation are essential to our success both as a company and as individuals. We work at all levels to drive lasting change. We appreciate our clients' knowledge and experience. We want to strengthen capabilities rather than substitute for management. We seek to provide a catalyst for change.

EXPERTISE

We adapt strategic decisions and practical actions tailored to clients critical issues and opportunities. The proven skills and capabilities of our outstanding consultants, many of whom are recognized experts in their respective fields have contributed to our success in handling complex cases and providing guidance to our clients. We believe in interdisciplinary collaboration and work with our experts from all over the world for a seamless integration to transform healthcare services such as :

1. Compliance and Monitoring Services
2. Performance Improvement
3. Healthcare Systems Procurement and Supply Chain
4. Home Care Services
5. Health care Contract Negotiation
6. Day Centre Services and Skills Empowerment & Training Centers
7. Advocacy Services supports vulnerable people to make informed decision and secure the right to services they are entitled such as:
 - Independence from influence of health and social care providers and any conflict
 - Empowerment to enable those using services to develop self-advocacy
 - Impartiality
 - Confidentiality
- Inclusion - recognition of diversity and ensure non exclusion due to

difference in language, culture, disability or capacity

- Supported Housing
 - a. Women suffering from abusive relations
 - b. Sheltered Accommodation for Vulnerable women and children

COMPLIANCE AND MONITORING SERVICES

Healthcare corporations of every size face a range of risks or have to comply with mandated regulatory standards requiring independent monitoring. Such ongoing challenges require an operating

environment that has robust internal controls and compliance policies that are tested and remediated on an ongoing basis. **ISINGIDI CLOBAL LIMITED** provides integrated global teams of compliance experts and specialists who offer a cost-effective approach to testing, enhancing and monitoring corporate compliance programs.

Effective compliance plays critical role in preventing threats and violations of the laws that could tarnish a corporation's image and impact its business relationships or financial viability. Our highly experienced Consultants bring detailed knowledge of their fields to client projects, providing full-scale assessments, process improvement and support for compliance programs.

- We have goals in every monitoring assignments - effectiveness and

efficiency.

- We fulfil these goals by designing our monitoring plan in a manner that utilises our extensive experience and resources, ensures independence and transparency in our work economy.
- Promotes cooperation with all interested parties, manages both tangible and intangible costs to the enterprise and maintains oversight and accountability.

We help analyze current policies and procedures to find gaps or breaches in existing safeguards. We are adept at designing and implementing controls that serve to rehabilitate deficiencies and/or monitor the continuing effectiveness of an organization's compliance programs in an ever-changing healthcare environment.

PERFORMANCE IMPROVEMENT

ISINGIDI CLOBAL LMITED provides clients with the expertise to successfully address the many challenges of the marketplace and achieve peak performance. With in-depth knowledge of best practices, combined with real-world operations experience, our experts quickly evaluate options and develop sustainable solutions.
